

Introducing

The ultimate system to disinfect and protect stores, employees and customers.

Our 3-Step Complete Sanitizing System provides an efficient way to disinfect and protect stores, distribution centers employees and patrons. This system can be utilized in part or as a whole for total protection.

Sanitize. Prevent. Protect.

1

SaniMist

SaniMist is the EPA registered disinfecting formula for whole room surface disinfection. This hospital-grade formula is approved for use on hard, pre-cleaned, non-porous, non-food contact surface disinfection procedures. SaniMist had been proven to reduce facility infection rates where it counts - in the field. Quaternary components of SaniMist were designed specifically to work with PreventX 24/7.

SaniMist Feature and Benefits

- Packaging-Liquid concentrate packets, not shipping water
- Eco Friendly, no plastic
- Multi-purpose sprayer flexibility
- Minimal storage capacity
- Just add water from the tap

2

PREVENTX 24/7

PreventX 24/7 is an EPA registered anti-microbial that imparts long lasting (30+ days) anti-microbial protection on hard surfaces and fabrics. PreventX 24/7 establishes a nano-spiked carbon barrier onto the applied surface that will physically puncture micro-organisms in between cleaning or disinfecting. 35 years of proven technology. Non-toxic – environmentally friendly – non-leaching – user friendly –and safe.

PreventX Feature and Benefits

- Creates antimicrobial surface “protector”
- Invisible shield that lasts up to 30 days
- Adheres to any surface
- Eliminates constant wipe down
- Independent studies shows effective control of mold, mildew, odor causing bacteria along with other viral bacteria

3

SPRAYER

A two piece unit along with a power pack makes using this tool simple and convenient to operate.

SaniMist and PreventX Sprayer/Surface applicator Feature and benefits

- Designed to be used with both the SaniMist and PreventX applications
- Convenient and light for one handed use
- Creates Electromagnetic charge in conjunction with SaniMist and PreventX
- Works best for 0-8000 square foot applications
- Designed specific for the medical community
- Complete with solution bulb, 2-rechargeable batteries, and charger

Item Number	Product Description	Quantity / Case
